

# Environmental Education Training

## Wolf Creek National Fish Hatchery Workshop

### Project Wild!

The *Project WILD K-12 Curriculum and Activity Guide* focuses on wildlife and habitat. It is organized into topic units and is based on the Project WILD conceptual framework. Because these activities are designed for integration into existing courses of study, instructors may use one or many Project WILD activities, or the entire set of activities may serve quite effectively as the basis for a course of study.

Each Project WILD activity contains all the information needed to conduct that activity including objectives, method, background information, a list of materials needed, procedures, evaluation suggestions, recommended grade levels, subject areas, duration, group size, setting, and key terms. A glossary is provided as well as an index cross-referenced by topics and skills.

*This workshop is sponsored by Wolf Creek National Fish Hatchery and the Kentucky Association of Environmental Education.*

**WHEN:** Wednesday, July 20, 2016  
8:00am – 3:30pm CST

**WHERE:** Wolf Creek National
